### OBJECTIVE

A dedicated and skilled Frontend Developer with 0 - 2 years of experience specializing in creating user-friendly interfaces and responsive designs. Committed to delivering high-quality web applications, enhancing user experiences, and staying updated with the latest technologies. Bringing a solid foundation in web development, exceptional design skills, and a keen eye for innovation to drive the organization's digital presence.

### WORK EXPERIENCE

#### Frontend Developer 1

Rework Technologies 2022 - Till date

- Assisted in the development and enhancement of web applications using HTML, CSS, and JavaScript.
- Worked closely with senior developers to translate design mockups into functional web pages.
- Participated in agile development sprints, providing timely updates and completing assigned tasks within deadlines.
- Conducted browser testing and debugging to ensure consistent user experiences across different devices and browsers.
- Contributed to the documentation of codebase, improving team collaboration and knowledge sharing.

#### Admin Staff

IT Telecom and Digest 2014 - 2016

- Maintaining relationships with key vendors and evaluating their performance based on predefined criteria.
- Coordinating with the IT department for more complex technical issues, system upgrades, and maintenance activities.
- Coordinating office activities, such as meetings, appointments, and events.

#### Projects:

- E-commerce Website - Developed a responsive e-commerce platform using React.js, integrated with a backend API for product listings and user authentication.
- Portfolio Website - Designed and developed a personal portfolio showcasing projects, skills, and professional experience using HTML, CSS, and JavaScript.
- A property Website Application: Designed and developed a property website using React.js, integrated with a backend API for product purchase, renting and selling and testing of API with postman.
- Various other project of responsive webpages.
